

System design document for Group 16

Group 16

October 5, 2022

1 Introduction

1.1 Definitions, acronyms, and abbreviations

Feyrune:	The name of the application
DoD	Definition of Done

2 System architecture

3 System design

4 Persistent data management

No data is stored and all images are stored using tileset .png files in the assets folder. The maps are stored in a similar vein by using .tmx files that are also stored in the assets folder. The .tmx files contain *all* relevant data for the given map.

5 Quality

5.1 Access control and security
